

**Miller & Rhoads**  
Special for To-Day--  
**Embroideries.**  
Fine Swiss and Nainsook Edges and Insertions --a Wonderful Value at **15¢ y'd**  
A LOT OF OVER THREE THOUSAND YARDS--all of them fine Swiss and sturdy nainsook edges and insertings, from 1 to 8 inches wide--most of them REAL HAND LOOM GOODS!  
These beautiful embroideries represent a broken lot of this season's importations, and are worth much more than the price asked in this sale.  
Women who admire exquisitely worked patterns in fine embroideries and desire A BARGAIN should avail themselves of this opportunity while they have the chance.  
MILLER & RHOADS.

**MORE ARC LIGHTS IN HIGHLAND PARK**  
**TELEPHONE MEN ORGANIZE CLUB**

**Will Install Sixteen Lamps. Town Council Wants Citizens to Indorse Bond Issue.**  
Continuing its progressive policies, the Town Council of Highland Park, at the monthly session last night, approved an ordinance which provides for the installation of sixteen arc lights. The town now has thirty-seven of these lamps, and when the new ones are received it will be the best lighted suburb around Richmond. Practically every street intersection will have a full power arc.

It was reported to the Council that the work on the public artesian well is progressing finely. The workmen have reached a depth of 363 feet. Although they have struck a slight flow of water, the boring will continue for another hundred feet, possibly more. Solid granite has been reached, and barely five feet a day is being attained by the drills.  
Plans for the mass-meeting of voters were discussed. On next Monday night at 8 o'clock every citizen of Highland Park is invited to meet in the assembly room of the school. A bond issue to cover the cost of permanent street improvements will be the topic before the assembly. While every member of the Council favors the issuance of bonds for street work, all desire the ratification of the voters, especially as to the amount.  
It is thought by many that not more than \$50,000 should be borrowed. Others contend that the full limit allowed by law will not be too much. Under the present valuation of property, the town is entitled to borrow \$88,000. Mayor Bahlke is among those who desires the full amount. Whatever is not used at once can be banked and the amount saved as a premium on the one issue will more than counterbalance the difference in the interest.

**RICHMOND GRAYS FACE INSPECTION**

**Annual Federal Examination of Local Battalion Begun Yesterday.**  
Battalion headquarters and Companies A and B of the First Battalion, First Virginia Infantry, were inspected last night by Captain J. K. Partello, Fifth Infantry, Inspector-in-Chief with the Virginia Volunteers. After examination of the headquarters' staff in the temporary quarters of the battalion at 1112 Capitol Street, the two companies were marched to Twelfth and Broad Streets, where they were inspected in the glare of the ornamental lights. Military property was examined during the day.  
Adjutant-General Sale was unable to be present. Major Lawrence T. Price, the battalion commander, accompanied by Captain Partello. All the officers of the companies were present, including Captain W. C. Herbert, of Company A, and Captain W. H. Stack, of Company B. Those present were Colonel Charles A. Dempsey, U. S. A., retired, and Lieutenant Leach, U. S. A., Inspector-in-Chief on duty with the National Guard of the District of Columbia.  
Addressing the two companies in turn, Captain Partello informed them that hereafter no soldier will be permitted to take any part of the uniform from the army except on strict military duty. He further suggested that to the advantage of the State's proposition to sell \$1 shoes for \$1.50 to each man would be good business, especially as it is desired to have uniformity as far as possible, the rule being the use of tan shoes.  
Companies C and F, of the Richmond Grays, will be inspected to-night.

**Business Men's Club to Meet Thursday for Open Discussion of Subject.**  
**Formal Inspection of Streets to Be Smooth Paved Is Made.**

A meeting which the entire membership of the Business Men's Club is invited to attend will be held on Thursday, March 20, from 2 until 2:45 o'clock, for the purpose of discussing annexation, and of bringing out, as far as possible, the real opinion of Richmond business men on that question.  
The meeting will be held in the parlors of the Commercial Hotel, and is being held through the management of the club, and as many members as possible are urged to attend. No cards will be sent to individual members.  
With a public hearing on annexation by a Council committee, scheduled for Tuesday, March 25, it is considered desirable to ascertain and crystallize public opinion before that time. With this end in view, there will be no set speakers, but any one who desires may address the meeting for not more than seven minutes. In this way it is hoped that a number of opinions will be heard and something like a consensus reached.  
Thomas P. Bryan, president of the club, will preside, and the arrangements are in charge of the same committee which arranged the discussion on annexation held last Wednesday. The members are John Landstreet, chairman; W. P. Vaudy and Arthur Levy. This committee will probably have presented to the meeting the same facts that were set forth at the recent discussion, showing, especially, the Richmond's comparative standing among cities as to population and area.

**Will Use Old Blocks.**  
The board of directors of the City Engineer's Office, in the case of the new building of the Richmond Dairy Company, reported yesterday the purchase of a Stevens-Duryen car for \$4,000. The action was approved and the bill ordered paid. The sale having been made by the Eastern Motor Sales Company. The board had set 3:30 o'clock yesterday afternoon to hear from bidders on the various grades of street paving; but on account of the bright afternoon, the order was changed, and the members went out in their new car to inspect the various blocks scattered over the city on which paving bids have been invited. Because of the limitations of the street appropriation, and the urgent need of grading and graveling streets in the newer sections, it is becoming apparent that it will not be possible to order at this time all of the work in smooth paving on which bids have been invited. In his opinion, and the board is endeavoring to look over the list with a view of eliminating the least urgent.

**MILK BOTTLES ON TOP OF NEW DAIRY**  
**KODAK EXHIBIT DRAWS CROWDS**  
**EDUCATION BOARD TO ELECT MEMBERS**

**They'll Be Big Ones, More Than Two Stories High, With Model Plant Below.**  
Plans have been filed in the office of Building Inspector Butler for the new building of the Richmond Dairy Company, described by the architects as the most modern and complete dairy plant in this country. A feature of the design will be the erection at the three outside corners of immense towers of concrete, each more than two stories in height, in the shape and appearance of bottled milk. To carry out the representation, the lower tiling of the towers is to be white, shading off toward the top to deep, rich cream. The interior of the new dairy will be of white enamel brick throughout, with every appliance for sanitation and convenience. Among other features is a pump, located near the entrance, by which milk brought in from surrounding farms and intended for butter making, can be pumped directly to the third floor, where the creaming and apparatus for making butter will be located.

**Free "Movies," Lecture and Splendid Pictures Make Unusual Show at Jefferson.**  
Fully 1,000 enthusiastic camera fiends and persons interested in amateur photography flocked yesterday afternoon and last night to the Jefferson Hotel auditorium for the opening day of what is perhaps the best free show that has been staged in Richmond public in several months—the Kodak Exhibition. In addition to the Kodak pictures, there are moving pictures, a very entertaining speaker, good motion pictures with the unusual spice of being free.

**Called to Meet Next Tuesday to Make Selections Among Superintendents.**  
A special meeting of the State Board of Education was called yesterday by R. C. Stearnes, Superintendent of Public Instruction, for next Tuesday, March 25. Its principal business will be the election of two of its own members from among the division superintendents of the State.
